

1. INTRODUCTION

**OpenAutomate -
Business Process Automation Management &
Orchestration Platform using ASP.NET Core API,
Worker, Next.js, Python**

Robotic Process Automation (RPA)

RPA Helps

- Saves time and reduces manual effort.
- Improves accuracy by removing human errors.
- Scales business processes quickly.
- Frees employees for higher-value work.

PROBLEM

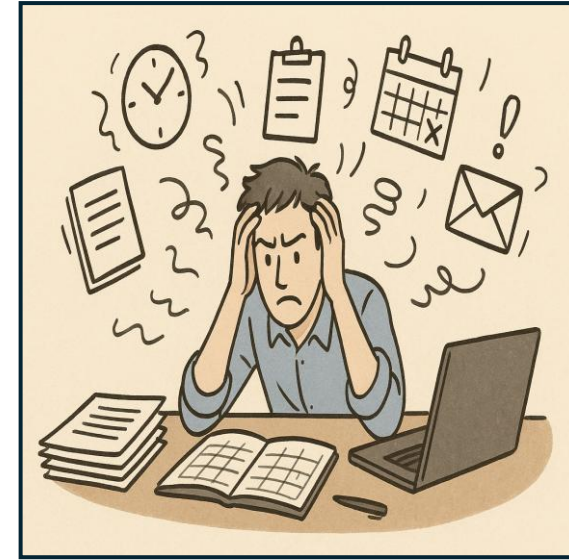

**Poor scalability
and reuse**

**Security/
compliance
risks**

**Weak
scheduling
/orchestration**

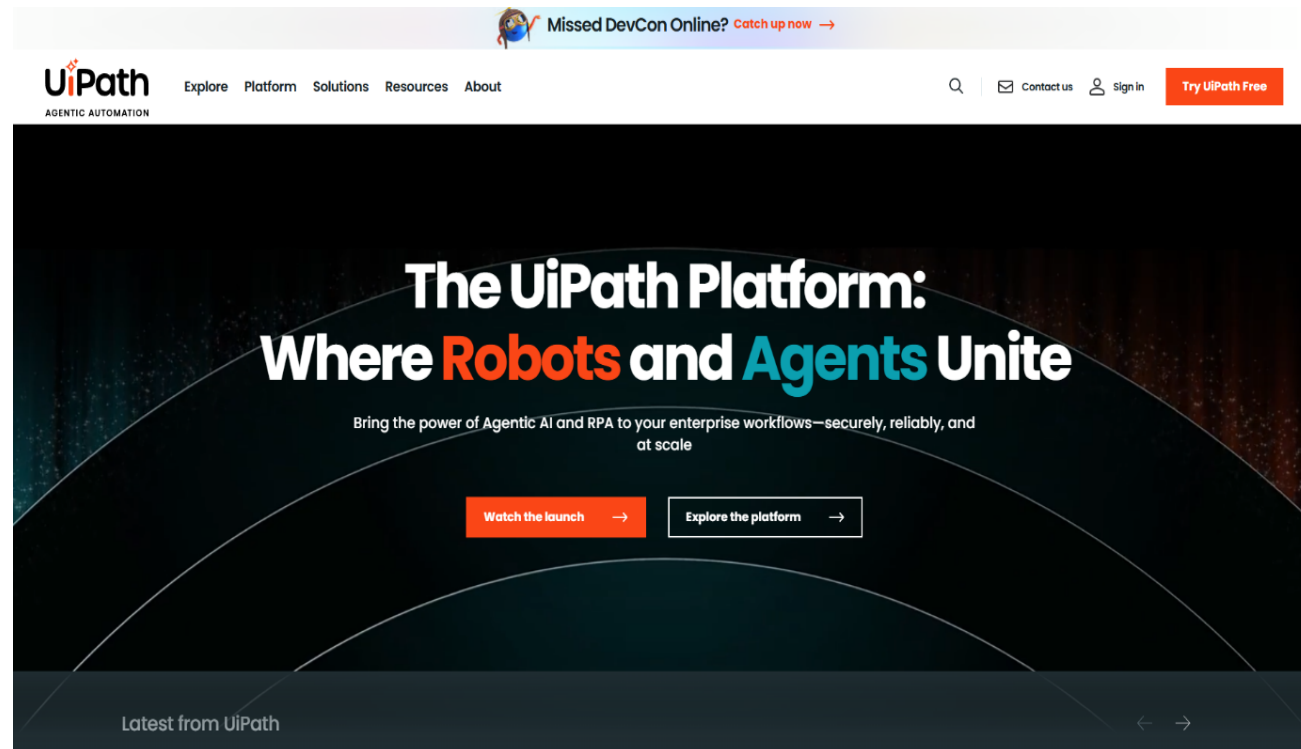

**Limited
monitoring
/observability**

EXISTING SYSTEM

UiPath - Advantages

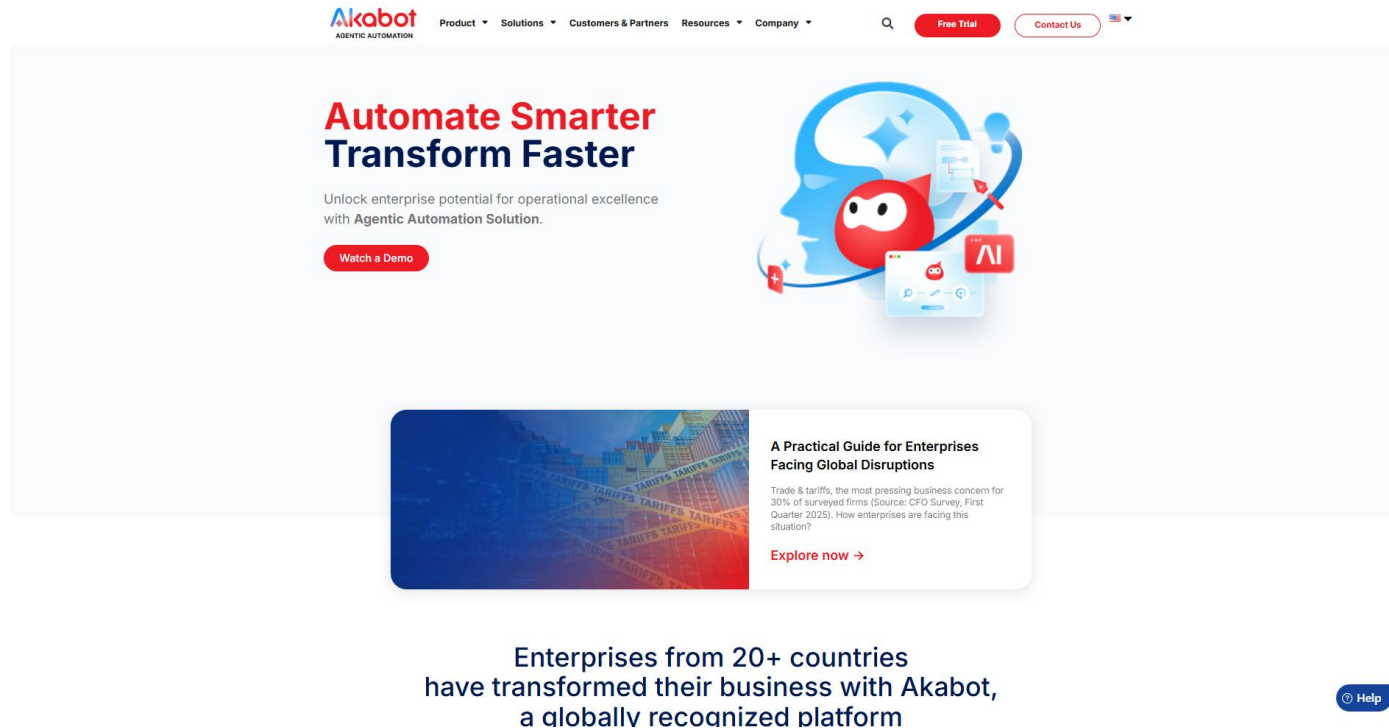

- Comprehensive ecosystem with tools for the entire automation lifecycle
- Extensive marketplace of pre-built components and connectors
- Large community and talent pool of certified developers
- Enterprise-grade security and governance features

EXISTING SYSTEM

FPT AkaBot - Advantages

- Simple drag-and-drop interface for establishing automation processes
- Quick setup for simple tasks
- Community support available
- Scalability and Performance

The screenshot shows the Akabot website homepage. At the top is a navigation bar with the Akabot logo (AGENTIC AUTOMATION) and links for Product, Solutions, Customers & Partners, Resources, and Company. There are also buttons for 'Free Trial' and 'Contact Us'. The main content area features a large hero section with the headline 'Automate Smarter Transform Faster' and a sub-headline 'Unlock enterprise potential for operational excellence with Agentic Automation Solution.' Below this is a 'Watch a Demo' button. To the right of the text is a graphic of a blue head profile with a red robot character inside, surrounded by icons representing automation and AI. Below the hero section is a featured article titled 'A Practical Guide for Enterprises Facing Global Disruptions' with a sub-headline 'Trade & tariffs, the most pressing business concern for 30% of surveyed firms (Source: CFO Survey, First Quarter 2023). How enterprises are facing this situation?' and an 'Explore now' button. At the bottom, a dark blue banner contains the text 'Enterprises from 20+ countries have transformed their business with Akabot, a globally recognized platform' and a 'Help' button.

**Automate Smarter
Transform Faster**

Unlock enterprise potential for operational excellence with Agentic Automation Solution.
